

Showtime Tours Shuttle Dyno

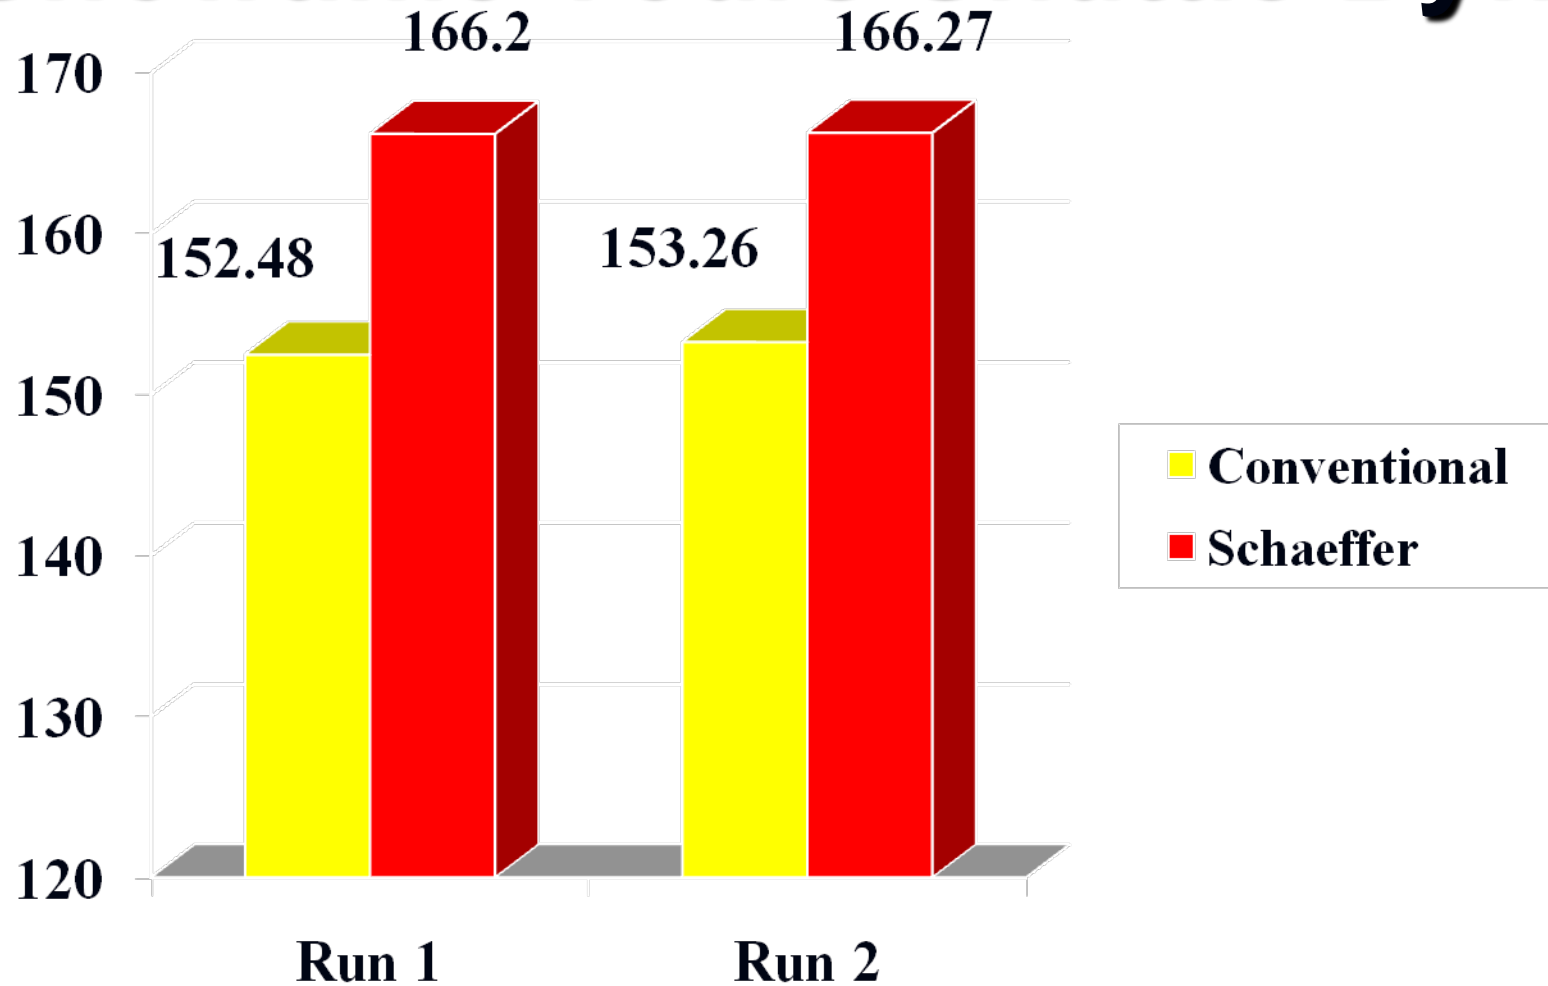

Showtime Tours Shuttle Dyno

- April 2006 Mike Mulligan called on Showtime Tour Bus company in Las Vegas
- Immediately extended drains through oil analysis, from 3000 miles to 8000 miles
- Owner needed more proof and requested a dyno performance test
- Tour bus uses a 7.3L Power Stroke Diesel.
- Conventional Chevron lubricants were replaced after the initial dyno run
- Same tests were performed using Schaeffer products
 - 700,
 - 137ND,
 - 204SAT,
 - 214,
 - 274
 - 238
- The results are as follows:

Showtime Tours Shuttle Dyno

8.74% Increase in Horsepower
